ADAM, Brother. *In Search of the Best Strains of Bees.* **£12.** An account of a unique series of journeys between 1950 – 1977 to investigate the exact whereabouts and characteristics of the different races of honeybees in Europe. Written by a world expert on practical bee breeding.

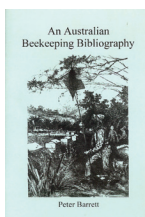

John H ATKINSON. *Background to Bee Breeding.* **£26.** The best in depth English volume on breeding which will be recognised, over time, as a classic

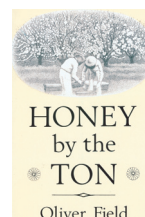

L.R.CROFT. *Curiosities of Beekeeping.* **£4.50** A compilation of numerous fascinating anecdotes taken from many diverse and often obscure sources

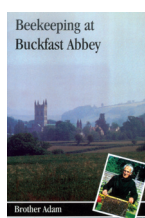

ADAM, Brother. *Breeding the Honeybee.* **£12.** A lifetime spent perfecting the Buckfast Abbey strain enables Brother Adam to speak authoritatively on every aspect of bee breeding.

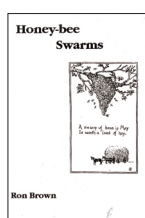

Peter BARRETT. *An Australian Beekeeping Bibliography.* **£5.50** An annotated catalogue of Australian works on beekeeping up to 1999.

FIELD, Oliver. *Honey by the Ton.* **£9.95** Written for all beekeepers who wish to make money from their bees.

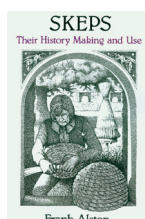

ADAM, Brother. *Beekeeping at Buckfast Abbey.* **£9.95.** The story of beekeeping at Buckfast Abbey which includes much information on the breeding and raising of queens.

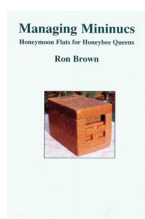

Ron BROWN. *Honey-bee Swarms.* **£1.50** Practical advice on reducing swarms together with information on bate hives, artificial swarms and their management

Oliver Field. *Honey Days.* **£11.75.** The beekeeping and country year seen through the eyes of a highly successful commercial beekeeper

ALSTON, Frank. *Skeps, their History, Making and Use.* **£10.95.** The only recent volume on this subject.

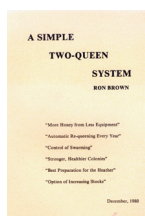

Ron BROWN. *Managing Mininucs – Honeymoon Flats for Honeybee Queens.* **£1.50** Instructions on the management of mininucs for queen rearing.

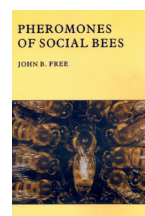

FRASER, H. Malcolm. *History of Beekeeping in Britain.* **£13.45** This is the first book to be published on the history of beekeeping in Britain and records its development against changing social and economic trends over each succeeding century.

ALSTON, FRANK. *Hives & Honeybees in Signs and Symbols.* **£7.75.** An interesting insight into the illustrative importance of bee symbols throughout the world.

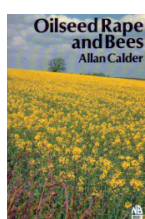

Ron BROWN. *The Two Queen System.* **£1.50** The title tells it all - Two queens mean more bees which equal more honey

Free, J.B. *Pheromones of Social Bees.* **£26.** This rare title, once more available, describes the influence of pheromones on the activities of honey and other social bees.

ASTON, David & BUCKNALL, Sally. *Plants and Honey Bees – Their Relationship.* **£22.** Essential reading for the serious candidate who wishes to study the relationship further. Awarded an Apimondia Bronze medal.

Allan CALDER. *Oilseed Rape and Bees.* **£8.75** A review of the importance to beekeepers of oilseed rape and its relationship to bees.

John B. Free. *The Social Organisation of Honey Bees* **£5.75.** An objective, concise yet readily readable account of the social organization of the honeybee colony.
